

* In case we have insufficient numbers in a particular shift in a particular city, 2 shifts will be merged into one shift - the one having the higher numbers.

* If we do not have sufficient seats for all the registered candidates in one shift at a centre, candidates may be re-allocated to the other shift at the same centre or to an alternate exam centre.

**In case, we have insufficient numbers in the cities marked with **, this city will be cancelled and candidates will be allocated to the alternate city automatically.
