

Frequently asked questions Fuel Cell Technology
by K Prof. S Basu , Chemical Department, IIT Delhi, New Delhi.

Module 4: Components of fuel cell

Module 4: Frequently asked questions:

Question no. 1. List some of the important components of the fuel cell.

Question no. 2. What are the desired characteristics of fuel cell membrane?

Question no. 3. What are the main functions of bipolar plate in fuel cell?

Question no. 4. Explain the significance of “115” in Nafion-115.

Question no. 5. Area of a fuel cell is increased by 20-times and its resistance is decreased to $1/10^{\text{th}}$. Find out the percentage change in the ohmic loss of the fuel cell.
