Module 6 : Animation
Lecture 3 : How to create a short animation film

Exercises

1. Cut two circular disc about 3” in diameter. Draw two eyes on one of them and a face without eyes on the other. Arrange the discs, back to back and place a thin stick between them. Glue the disks together, with the stick in the middle. Once it dries, twirl the stick to understand how some of the early animators used the thaumatrope.

2. Create a flip book to animate a person yawning.
