Unit 8 - Week 6: Recombinant DNA Technology (Part 2)

Assignment 6

Due on: 2019-09-11, 23:59:59 GMT

You can only submit this assignment once.

Assignment: 1. DUE DATE: Monday, 19th September 2019

1. The GATT code for amino acid serine is __________.

2. The GATT code for amino acid leucine is __________.

3. The GATT code for amino acid isoleucine is __________.

4. The GATT code for amino acid arginine is __________.

5. The GATT code for amino acid tyrosine is __________.

6. The GATT code for amino acid histidine is __________.

7. The GATT code for amino acid asparagine is __________.

8. The GATT code for amino acid glutamine is __________.

9. The GATT code for amino acid glutamic acid is __________.

10. The GATT code for amino acid aspartic acid is __________.

11. The GATT code for amino acid lysine is __________.

12. The GATT code for amino acid alanine is __________.

13. The GATT code for amino acid valine is __________.

14. The GATT code for amino acid proline is __________.

15. The GATT code for amino acid leucine is __________.

16. The GATT code for amino acid phenylalanine is __________.

17. The GATT code for amino acid tryptophan is __________.

18. The GATT code for amino acid methionine is __________.

19. The GATT code for amino acid isoleucine is __________.

20. The GATT code for amino acid threonine is __________.

21. The GATT code for amino acid cysteine is __________.

22. The GATT code for amino acid glycine is __________.

23. The GATT code for amino acid serine is __________.

24. The GATT code for amino acid asparagine is __________.

25. The GATT code for amino acid glutamine is __________.

26. The GATT code for amino acid arginine is __________.

27. The GATT code for amino acid lysine is __________.

28. The GATT code for amino acid alanine is __________.

29. The GATT code for amino acid valine is __________.

30. The GATT code for amino acid proline is __________.

31. The GATT code for amino acid leucine is __________.

32. The GATT code for amino acid phenylalanine is __________.

33. The GATT code for amino acid tryptophan is __________.

34. The GATT code for amino acid methionine is __________.

35. The GATT code for amino acid isoleucine is __________.

36. The GATT code for amino acid threonine is __________.

37. The GATT code for amino acid cysteine is __________.

38. The GATT code for amino acid glycine is __________.

39. The GATT code for amino acid serine is __________.

40. The GATT code for amino acid asparagine is __________.

41. The GATT code for amino acid glutamine is __________.

42. The GATT code for amino acid arginine is __________.

43. The GATT code for amino acid lysine is __________.

44. The GATT code for amino acid alanine is __________.

45. The GATT code for amino acid valine is __________.

46. The GATT code for amino acid proline is __________.

47. The GATT code for amino acid leucine is __________.

48. The GATT code for amino acid phenylalanine is __________.

49. The GATT code for amino acid tryptophan is __________.

50. The GATT code for amino acid methionine is __________.
