   Accepted Answers:
   Habitat

4. Join Phalimassal is fall under the SCI category of:
   - Extinct (E)
   - Endangered (E)
   - Critically endangered (C)
   - Least concern (LC)
   No, the answer is incorrect, Section 4
   Accepted Answers:
   Critically endangered (C)

5. The domestic cat / domestic dog can be classified as:
   - Endangered (E)
   - Vulnerable (VU)
   - Near threatened (NT)
   - Least concern (LC)
   No, the answer is incorrect, Section 5
   Accepted Answers:
   Least concern (LC)

6. "A gene is considered polymorphic if the frequency of the most common allele is less than some arbitrary threshold." This threshold is commonly:
   - 0.6
   - 0.9
   - 0.1
   - 0.1
   No, the answer is incorrect, Section 6
   Accepted Answers:
   0.1

7. "The diversity that exist within different geographies is:
   - Alpha diversity
   - Beta diversity
   - Gamma diversity
   - Delta diversity
   No, the answer is incorrect, Section 7
   Accepted Answers:
   Gamma diversity

8. "The diversity that exist within an ecosystem is:
   - Alpha diversity
   - Beta diversity
   - Gamma diversity
   - Delta diversity
   No, the answer is incorrect, Section 8
   Accepted Answers:
   Alpha diversity

9. The tiger and the elephant can be called as:
   - Uridinates
   - Aduridinates
   - Haplodiploids
   - Haplodiploids
   All of these
   No, the answer is incorrect, Section 10
   Accepted Answers:
   All of these

10. Which of these is not a use value?
    - Direct value
    - Indirect value
    - Option value
    - Existence value
    No, the answer is incorrect, Section 11
    Accepted Answers:
    Existence value
