1) The subset of physical and biotic environmental factors that permit an animal (or plant) to survive and reproduce is the definition of
   a) Habitat
   b) Consumption
   c) Biotic
   d) Geographic
   
   No, the answer is incorrect.
   Accepted Answers: Habitat

2) Transplantation experiments are used to find
   a) Potential range
   b) Effective range
   c) Actual range
   d) Economic range
   
   No, the answer is incorrect.
   Accepted Answers: Potential range

3) The rate of any biological process is limited by the factor or least amount relative to requirement, so there is a single limiting factor. This is the definition for
   a) Leopold's law of minimum
   b) Leopold’s law of maximum
   c) Shelford's law of tolerance
   d) Shelford's law of dominance
   
   No, the answer is incorrect.
   Accepted Answers: Shelford’s law of dominance

4) Eutrophication, especially at low latitudes, is an example of
   a) Habitat loss
   b) Habitat degradation
   c) Habitat fragmentation
   d) Habitat alienation
   
   No, the answer is incorrect.
   Accepted Answers: Habitat degradation

5) The geographical distribution of species will be controlled by that environmental factor for which the organism has the smallest range of tolerance. This is the statement for
   a) Leopold's law of minimum
   b) Leopold's law of maximum
   c) Shelford's law of tolerance
   d) Shelford's law of dominance
   
   No, the answer is incorrect.
   Accepted Answers: Shelford's law of tolerance

6) The conversion of Biological Diversity set a goal of protecting at least _____ % of each ecosystem by the year 2010.
   a) 10
   b) 20
   c) 30
   d) 40
   
   No, the answer is incorrect.
   Accepted Answers: 30%

7) We prefer those areas for the creation of conservation reserve where the level of threat is
   a) Very high
   b) Medium
   c) Very low
   d) Non-existent
   
   No, the answer is incorrect.
   Accepted Answers: Very high

8) The species “HIPPO” doesn’t include
   a) Habitat loss
   b) Habitat alienation
   c) Invasive species
   d) Habitat over exploitation
   
   No, the answer is incorrect.
   Accepted Answers: Habitat over exploitation

9) According to Lepido, which of these is not a tool for habitat management?
   a) Site
   b) Planning
   c) Cartography
   d) Guide

   No, the answer is incorrect.
   Accepted Answers: Guide
