Unit 10 - Week 07 - Ex-situ conservation

Assignment (7)

The due date for submitting this assignment has passed. As per our records you have not submitted this assignment.

1. In situ means:
   - On site
   - Off site
   - Dead site
   - Under site
   - None of these
   - Not sure
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - On site

2. Captive breeding is an example of:
   - In situ conservation
   - Ex situ conservation
   - In situ preservation
   - Ex situ preservation
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - Captive breeding is not an example of conservation.

3. Tiger reserves are an example of:
   - In situ conservation
   - Ex situ conservation
   - In situ preservation
   - Ex situ preservation
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - Tiger reserves are not an example of conservation.

4. As per Wildlife Protection Act 1972:
   - "Zoo" includes citrus and rescue centres.
   - "Zoo" includes both citrus and rescue centres.
   - "Zoo" includes citrus centres but not rescue centres.
   - "Zoo" includes rescue centres but not citrus centres.
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - "Zoo" includes citrus and rescue centres.

5. In situ conservation typically requires:
   - Less area than ex situ conservation.
   - Equal area at ex situ conservation.
   - More area than ex situ conservation.
   - None of these.
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - In situ conservation typically requires more area than ex situ conservation.

6. In situ conservation typically permits:
   - Less intense intervention than ex situ conservation.
   - Equal intense intervention as ex situ conservation.
   - More intense intervention than ex situ conservation.
   - None of these.
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - In situ conservation typically permits less intense intervention than ex situ conservation.

7. Ex situ cost is typically lesser than in situ cost for:
   - Small bodied animal
   - Large bodied animal
   - Both of these.
   - None of these.
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - Large bodied animal.

8. Stockbooks are used in contexts of:
   - Animal feeding
   - Animal health
   - Animal breeding
   - Animal identification
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - Animal breeding.

9. Stereotypes in captive animals can be prevented by:
   - Feed enrichment
   - Behaviour enrichment
   - Habitat enrichment
   - R.q. the answer is incorrect. Score: 0
   - Accepted Answers:
     - Behaviour enrichment

10. For long term viability, seeds should be stored under conditions of:
    - High temperature, high humidity
    - Low temperature, low humidity
    - Low temperature, high humidity
    - High temperature, low humidity
    - R.q. the answer is incorrect. Score: 0
    - Accepted Answers:
      - Low temperature, low humidity
