Assignment-8

The due date for submitting this assignment has passed.

As per our records you have not submitted this assignment. **Due on 2019-03-27, 23:59 IST.**

1) The acronym HIPPO does not include 2 points

- habitat loss
- invasive species
- pollination
- pollution

No, the answer is incorrect.

Score: 0

Accepted Answers:

pollination

2) Zoo is an example of 2 points

- in-situ conservation
- ex-situ conservation
- in-situ preservation
- ex-situ preservation

No, the answer is incorrect.

Score: 0

Accepted Answers:

ex-situ conservation

3) We prefer those areas for the creation of a conservation reserve where the level of threat is 2 points

- very high
- medium
- very low

Assignment-8

Assignment 8
Solution

**Week 9_Human
Ecology**

**Week
10_Ecology of
change**

**Week
11_Applied
Ecology**

**Week
12_Revision**

- in-situ conservation
- ex-situ conservation
- in-situ preservation
- ex-situ preservation

No, the answer is incorrect.

Score: 0

Accepted Answers:

ex-situ conservation

5) The acronym HIPPO does not include

2 points

- habitat loss
- habitat enhancement
- invasive species
- human over-population

No, the answer is incorrect.

Score: 0

Accepted Answers:

habitat enhancement

6) Which of these is a deterministic factor?

2 points

- environmental variation
- forest fire
- death rate
- diseases

No, the answer is incorrect.

Score: 0

Accepted Answers:

death rate

7) Which of these is a stochastic factor?

2 points

- birth rate
- death rate
- population structure
- environmental fluctuation

No, the answer is incorrect.

Score: 0

Accepted Answers:

environmental fluctuation

8) The "subset of physical and biotic environmental factors that permit an animal (or plant) to survive and reproduce" is the definition of **2 points**

- habitat
- ecosystem
- biome
- biosphere

No, the answer is incorrect.

Score: 0

Accepted Answers:*habitat*

9) According to Leopold, which of these is not a tool of habitat management?

2 points

- fire
- gun
- cattle
- sickle

No, the answer is incorrect.**Score: 0****Accepted Answers:***sickle*

10) Which of these correctly represents the process of habitat fragmentation and loss?

2 points

- Original forest → Dissection → Perforation → Fragmentation → Attrition
- Original forest → Dissection → Attrition → Fragmentation → Perforation
- Original forest → Dissection → Perforation → Attrition → Fragmentation
- Original forest → Dissection → Fragmentation → Perforation → Attrition

No, the answer is incorrect.**Score: 0****Accepted Answers:***Original forest → Dissection → Perforation → Fragmentation → Attrition*[Previous Page](#)[End](#)
