1. Which of these is a laboratory method to determine best days for seed collection?
   - maximum dry weight
   - colour of fruits
   - moisture content of fruits
   - chemical analysis of fat and nitrogen content
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   colour of fruits

2. The number of seeds in sample that germinate up to the peak germination period expressed as % is a reflection of
   - germination number
   - germination percentage
   - germination energy
   - germination power
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   germination energy

3. Which of these is a good storage condition?
   - high moisture, high temperature
   - low moisture, low temperature
   - low moisture, high temperature
   - medium moisture, low temperature
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   low moisture, low temperature

4. Shell cracking of seeds is used for which species?
   - ants
   - mongo
   - bar (palm)
   - test
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   (test)

5. Sawdust is used for
   - barrier fire fencing
   - fox fencing
   - snow fence
   - all of these
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   (all of these)

6. Which of these prevents water logging?
   - sunny bed
   - raised bed
   - flat bed
   - all of these
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   (all of these)

7. Which of these characteristics is a refractory site?
   - soil depth is < 10 cm
   - soil depth is 10-30 cm
   - soil depth is > 30 cm
   - none of these
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   soil depth is > 30 cm

8. Which of these conserve moisture
   - sunny bed
   - raised bed
   - flat bed
   - all of these
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   (all of these)

9. Choice of spacing is dependent upon
   - objective of plantation
   - site factors (topography, soil type, etc.)
   - growth rate
   - all of these
   *The answer is incorrect.*
   Score: 0
   Accepted Answer:
   (all of these)

10. Wet and dry treatment of seeds is used for which species
    - all of these
    - some
    - none
    - medium
    *The answer is incorrect.*
    Score: 0
    Accepted Answer:
    (all of these)
