Instructions: Based on the given data, answer the following questions:

1. Describe the trend of data in Country A over the last 5 years.
2. Predict the trend for Country B for the next 5 years.
3. Analyze the correlation between data in Country C and Country A.

---

Analysis:

1. The trend in Country A has been steadily increasing over the past 5 years.
2. Based on the current trend, Country B is expected to see a slight decrease in the next 5 years.
3. There is a strong correlation between the data in Country C and Country A, indicating a similar pattern.

Conclusion:

The analysis suggests that Country C will follow a similar trend as Country A if the current correlation holds true.
