Assignment 08

Due on 2020-05-05, 2020-05-

1. Which of the following statements are correct?
   - GAMS can use three programming languages, linear integer, nonlinear programming, and nonlinear programming.
   - The feasible region for a MILP problem with a specified constraint can be found using a MILP solver with integer constraints.
   - A MILP problem with a specified constraint can be solved using a MILP solver with integer variables.

2. What is the optimal solution to the given LP problem?

3. What are the optimal solution values for the given LP problem?

4. What is the optimal solution value for the given LP problem?

5. What is the optimal solution value for the given LP problem?

6. What is the optimal solution value for the given LP problem?

7. What is the optimal solution value for the given LP problem?

8. What is the optimal solution value for the given LP problem?

9. What is the optimal solution value for the given LP problem?

10. What is the optimal solution value for the given LP problem?

11. What is the optimal solution value for the given LP problem?

12. What is the optimal solution value for the given LP problem?

13. What is the optimal solution value for the given LP problem?

14. What is the optimal solution value for the given LP problem?

15. What is the optimal solution value for the given LP problem?

16. What is the optimal solution value for the given LP problem?

17. What is the optimal solution value for the given LP problem?

18. What is the optimal solution value for the given LP problem?

19. What is the optimal solution value for the given LP problem?

20. What is the optimal solution value for the given LP problem?

21. What is the optimal solution value for the given LP problem?

22. What is the optimal solution value for the given LP problem?

23. What is the optimal solution value for the given LP problem?

24. What is the optimal solution value for the given LP problem?

25. What is the optimal solution value for the given LP problem?

26. What is the optimal solution value for the given LP problem?

27. What is the optimal solution value for the given LP problem?

28. What is the optimal solution value for the given LP problem?

29. What is the optimal solution value for the given LP problem?

30. What is the optimal solution value for the given LP problem?

31. What is the optimal solution value for the given LP problem?

32. What is the optimal solution value for the given LP problem?

33. What is the optimal solution value for the given LP problem?

34. What is the optimal solution value for the given LP problem?

35. What is the optimal solution value for the given LP problem?

36. What is the optimal solution value for the given LP problem?

37. What is the optimal solution value for the given LP problem?

38. What is the optimal solution value for the given LP problem?

39. What is the optimal solution value for the given LP problem?

40. What is the optimal solution value for the given LP problem?

41. What is the optimal solution value for the given LP problem?

42. What is the optimal solution value for the given LP problem?

43. What is the optimal solution value for the given LP problem?

44. What is the optimal solution value for the given LP problem?

45. What is the optimal solution value for the given LP problem?

46. What is the optimal solution value for the given LP problem?

47. What is the optimal solution value for the given LP problem?

48. What is the optimal solution value for the given LP problem?

49. What is the optimal solution value for the given LP problem?

50. What is the optimal solution value for the given LP problem?

51. What is the optimal solution value for the given LP problem?

52. What is the optimal solution value for the given LP problem?

53. What is the optimal solution value for the given LP problem?

54. What is the optimal solution value for the given LP problem?

55. What is the optimal solution value for the given LP problem?

56. What is the optimal solution value for the given LP problem?

57. What is the optimal solution value for the given LP problem?

58. What is the optimal solution value for the given LP problem?

59. What is the optimal solution value for the given LP problem?

60. What is the optimal solution value for the given LP problem?

61. What is the optimal solution value for the given LP problem?

62. What is the optimal solution value for the given LP problem?

63. What is the optimal solution value for the given LP problem?

64. What is the optimal solution value for the given LP problem?

65. What is the optimal solution value for the given LP problem?

66. What is the optimal solution value for the given LP problem?

67. What is the optimal solution value for the given LP problem?

68. What is the optimal solution value for the given LP problem?

69. What is the optimal solution value for the given LP problem?

70. What is the optimal solution value for the given LP problem?

71. What is the optimal solution value for the given LP problem?

72. What is the optimal solution value for the given LP problem?

73. What is the optimal solution value for the given LP problem?

74. What is the optimal solution value for the given LP problem?

75. What is the optimal solution value for the given LP problem?

76. What is the optimal solution value for the given LP problem?

77. What is the optimal solution value for the given LP problem?

78. What is the optimal solution value for the given LP problem?

79. What is the optimal solution value for the given LP problem?

80. What is the optimal solution value for the given LP problem?

81. What is the optimal solution value for the given LP problem?

82. What is the optimal solution value for the given LP problem?

83. What is the optimal solution value for the given LP problem?

84. What is the optimal solution value for the given LP problem?

85. What is the optimal solution value for the given LP problem?

86. What is the optimal solution value for the given LP problem?

87. What is the optimal solution value for the given LP problem?

88. What is the optimal solution value for the given LP problem?

89. What is the optimal solution value for the given LP problem?

90. What is the optimal solution value for the given LP problem?

91. What is the optimal solution value for the given LP problem?

92. What is the optimal solution value for the given LP problem?

93. What is the optimal solution value for the given LP problem?

94. What is the optimal solution value for the given LP problem?

95. What is the optimal solution value for the given LP problem?

96. What is the optimal solution value for the given LP problem?

97. What is the optimal solution value for the given LP problem?

98. What is the optimal solution value for the given LP problem?

99. What is the optimal solution value for the given LP problem?

100. What is the optimal solution value for the given LP problem?
