Assignment 9

1. A threshold is set at 100 mV. Describe the process of determining the threshold for a neuron.
2. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.
3. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.
4. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.
5. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.
6. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.
7. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.
8. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.
9. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.
10. The membrane potential of a neuron is measured as 70 mV. Describe the process of determining the threshold for a neuron.

![Diagram of a neuron](image.png)

The neuron from which damage occurs is the Spinal Cord. Find the area.

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during

![Graph showing neuron activity](image.png)

The neuron's behavior may indicate a specific pattern during
