### Assignment 8

The due date for submitting this assignment has passed.
As per our records you have not submitted this assignment.

1) Under which category of hazard fall, having an immediate and obvious impact?
- Acute hazard
- Chronic hazard
- Repetitive stress
- None of these

No, the answer is incorrect. Score: 0

2) In which year Hazards operability (HAZOP) studies was developed by Loveluck?
- 1974
- 1975
- 1976
- 1977

No, the answer is incorrect. Score: 0

3) Under which category of hazard fall, having more hidden, cumulative or long term impact?
- Acute hazard
- Chronic hazard
- Repetitive stress
- None of these

No, the answer is incorrect. Score: 0

4) Under which category of hazard fall, shift work and workload fall?
- Physical
- Psychological
- Biological
- Chemical

No, the answer is incorrect. Score: 0

5) Under which category of hazard fall, HERAPADICG7S effects fall?
- Chemical
- Radiation
- Physical
- Macerental

No, the answer is incorrect. Score: 0

6) Risk assessment procedures that determine probability is called ______________ whereas a procedure that determines probability and consequences is ______________.

Risk assessment procedures that determine probability is called probabilistic risk assessment (PRA), whereas a procedure that determines probability and consequences is risk analysis (RA).

No, the answer is incorrect. Score: 0

7) ______________ is a schematic illustration of functional relationship of piping, instrumentation, and system equipment components.

A schematic illustration of functional relationship of piping, instrumentation, and system equipment components is called piping and instrumentation diagram (P&ID).

No, the answer is incorrect. Score: 0

8) Data hazard surveys are normally completed by the ______ , while weekly hazard surveys are normally completed by the ______ .

Data hazard surveys are normally completed by the operator or shift leader, while weekly hazard surveys are normally completed by the area safety inspector or operator or shift leader.

No, the answer is incorrect. Score: 0

9) Monthly hazard surveys are normally completed by ______ , while quarterly hazard surveys are typically completed by ______ .

Monthly hazard surveys are normally completed by area safety inspector or safety coordinator, while quarterly hazard surveys are typically completed by facility safety committee.

No, the answer is incorrect. Score: 0

10) What should we call Plant Superintendent of HAZOP team, according to the new design of HAZOP system?
- Project Engineer
- Process Engineer
- Commissioning Manager
- Instrument Design Engineer

No, the answer is incorrect. Score: 0
