Week 7 Assignment 7

The due date for submitting this assignment has passed. As per our records you have not submitted this assignment.

1) Methane monoxygenase has dioxygen centre?
   - True
   - False

   **No, the answer is incorrect.**
   **Score:** 0
   **Accepted Answers:**
   True

2) Transport of ions via pumps are active transport and ATP driven?
   - True
   - False

   **No, the answer is incorrect.**
   **Score:** 0
   **Accepted Answers:**
   True

3) Transport of ions by channels is passive transport and it is facilitated by diffusion?
   - True
   - False

   **No, the answer is incorrect.**
   **Score:** 0
   **Accepted Answers:**
   True

4) What will be the hydration free energy of K+ (in kcal/mol)?
   - 110
   - 55
   - 35
   - 170

   **No, the answer is incorrect.**
   **Score:** 0
   **Accepted Answers:**
   55

5) Which metal centers are present in hemocyanin?
   - Zn
   - Fe
   - Cu
   - Mg

   **No, the answer is incorrect.**
   **Score:** 0
   **Accepted Answers:**
   Cu
