4. You know that the option is correct if you know all 4, and you know that it is incorrect if you don’t. Alternatively, you are not sure.

5. You know which option is correct if you know all 4, and you know which is incorrect if you don’t. Alternatively, you are not sure.

6. The assignment is about magnetism and its effects on human health.

7. The assignment is about magnetism and its effects on human health.

8. The assignment is about magnetism and its effects on human health.

9. The assignment is about magnetism and its effects on human health.

10. The assignment is about magnetism and its effects on human health.

11. The assignment is about magnetism and its effects on human health.

12. The assignment is about magnetism and its effects on human health.

13. The assignment is about magnetism and its effects on human health.

14. The assignment is about magnetism and its effects on human health.

15. The assignment is about magnetism and its effects on human health.

16. The assignment is about magnetism and its effects on human health.

17. The assignment is about magnetism and its effects on human health.

18. The assignment is about magnetism and its effects on human health.

19. The assignment is about magnetism and its effects on human health.

20. The assignment is about magnetism and its effects on human health.

21. The assignment is about magnetism and its effects on human health.

22. The assignment is about magnetism and its effects on human health.

23. The assignment is about magnetism and its effects on human health.

24. The assignment is about magnetism and its effects on human health.

25. The assignment is about magnetism and its effects on human health.

26. The assignment is about magnetism and its effects on human health.

27. The assignment is about magnetism and its effects on human health.

28. The assignment is about magnetism and its effects on human health.

29. The assignment is about magnetism and its effects on human health.

30. The assignment is about magnetism and its effects on human health.

31. The assignment is about magnetism and its effects on human health.

32. The assignment is about magnetism and its effects on human health.

33. The assignment is about magnetism and its effects on human health.

34. The assignment is about magnetism and its effects on human health.

35. The assignment is about magnetism and its effects on human health.

36. The assignment is about magnetism and its effects on human health.

37. The assignment is about magnetism and its effects on human health.

38. The assignment is about magnetism and its effects on human health.

39. The assignment is about magnetism and its effects on human health.

40. The assignment is about magnetism and its effects on human health.

41. The assignment is about magnetism and its effects on human health.

42. The assignment is about magnetism and its effects on human health.

43. The assignment is about magnetism and its effects on human health.

44. The assignment is about magnetism and its effects on human health.

45. The assignment is about magnetism and its effects on human health.

46. The assignment is about magnetism and its effects on human health.

47. The assignment is about magnetism and its effects on human health.

48. The assignment is about magnetism and its effects on human health.

49. The assignment is about magnetism and its effects on human health.

50. The assignment is about magnetism and its effects on human health.

51. The assignment is about magnetism and its effects on human health.

52. The assignment is about magnetism and its effects on human health.

53. The assignment is about magnetism and its effects on human health.

54. The assignment is about magnetism and its effects on human health.

55. The assignment is about magnetism and its effects on human health.

56. The assignment is about magnetism and its effects on human health.

57. The assignment is about magnetism and its effects on human health.

58. The assignment is about magnetism and its effects on human health.

59. The assignment is about magnetism and its effects on human health.

60. The assignment is about magnetism and its effects on human health.
