Assignment 3
Due: Thursday, April 13, 2023

1. In the context of the larger organization of the topic of the paper, describe at least two higher-level goals and how they are achieved through tasks or subtasks within the paper.

2. A review of past studies reveals that it is difficult to measure the impact of a new technology on existing work processes because the impact is often indirect and difficult to quantify. Discuss how one might approach this challenge in a research study.

3. The paper presents a case study of a technology that was implemented in a company. However, the study does not provide specific details about the technology or the company. Suggest how the paper could improve its credibility by providing more specific information.

4. The paper states that the technology was implemented to improve efficiency. However, the paper does not provide specific metrics or a timeline for the implementation. Suggest how the paper could provide more concrete evidence of the technology's impact.

5. Let's consider a scenario where the company decides to implement the technology. Describe the potential benefits and challenges that might arise from implementing the technology.

6. The paper suggests that the technology could be applied in other industries. However, the paper does not discuss the potential challenges or limitations of this application. Suggest how the paper could address these concerns.

7. The paper concludes that the technology is a promising solution for improving efficiency. However, the paper does not provide a detailed discussion of the potential costs or implications of implementing the technology. Suggest how the paper could address these issues.

8. The paper mentions that the technology was implemented in a specific industry. However, the paper does not discuss the potential implications for other industries. Suggest how the paper could provide a broader perspective on the technology's applicability.

9. The paper concludes with a discussion of the potential future developments of the technology. However, the paper does not provide specific examples or insights into these developments. Suggest how the paper could provide more concrete examples.

10. The paper concludes with a discussion of the potential future developments of the technology. However, the paper does not provide specific examples or insights into these developments. Suggest how the paper could provide more concrete examples.
