Unit 2 – Week Assignment

Assignment 0

1. What are the benefits of using a computer in a business environment?

2. What are the key differences between quantitative and qualitative data?

3. What are the most common statistical tools used in business analysis?

4. What are the limitations of using a single measure of central tendency?

5. What are the limitations of using a single measure of variability?

6. What are the limitations of using a single measure of association?

7. What are the limitations of using a single measure of dispersion?

8. What are the limitations of using a single measure of location?

9. What are the limitations of using a single measure of distribution?

10. What are the limitations of using a single measure of trend?

11. What are the limitations of using a single measure of seasonal variation?

12. What are the limitations of using a single measure of cyclic variation?

13. What are the limitations of using a single measure of irregular variation?

14. What are the limitations of using a single measure of forecast error?

15. What are the limitations of using a single measure of parameter estimate?

16. What are the limitations of using a single measure of sample size?

17. What are the limitations of using a single measure of hypothesis testing?

18. What are the limitations of using a single measure of confidence interval?

19. What are the limitations of using a single measure of prediction interval?

20. What are the limitations of using a single measure of sample proportion?

21. What are the limitations of using a single measure of sample mean?

22. What are the limitations of using a single measure of sample variance?

23. What are the limitations of using a single measure of sample median?

24. What are the limitations of using a single measure of sample mode?

25. What are the limitations of using a single measure of sample skewness?

26. What are the limitations of using a single measure of sample kurtosis?

27. What are the limitations of using a single measure of sample entropy?

28. What are the limitations of using a single measure of sample entropy?

29. What are the limitations of using a single measure of sample entropy?

30. What are the limitations of using a single measure of sample entropy?

31. What are the limitations of using a single measure of sample entropy?

32. What are the limitations of using a single measure of sample entropy?

33. What are the limitations of using a single measure of sample entropy?

34. What are the limitations of using a single measure of sample entropy?

35. What are the limitations of using a single measure of sample entropy?

36. What are the limitations of using a single measure of sample entropy?

37. What are the limitations of using a single measure of sample entropy?

38. What are the limitations of using a single measure of sample entropy?

39. What are the limitations of using a single measure of sample entropy?

40. What are the limitations of using a single measure of sample entropy?
