Assignment 2

Due on 2020-02-12, 23:59 IST.

1. Which of the following is not required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: True

2. Which of the following is required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: False

3. Which of the following is not required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: True

4. Which of the following is required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: False

5. Which of the following is not required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: True

6. Which of the following is required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: False

7. Which of the following is not required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: True

8. Which of the following is required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: False

9. Which of the following is not required for F1F2 testing? (2 points)
   - High performance concrete
   - Low slump concrete
   - High strength concrete
   - Low strength concrete
   - True
   - False
   - By the instructor: True

10. Which of the following is required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: False

11. Which of the following is not required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: True

12. Which of the following is required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: False

13. Which of the following is not required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: True

14. Which of the following is required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: False

15. Which of the following is not required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: True

16. Which of the following is required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: False

17. Which of the following is not required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: True

18. Which of the following is required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: False

19. Which of the following is not required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: True

20. Which of the following is required for F1F2 testing? (2 points)
    - High performance concrete
    - Low slump concrete
    - High strength concrete
    - Low strength concrete
    - True
    - False
    - By the instructor: False
