Unit 13 - Week 12

Assignment 12

Due on: 2020-04-22 23:00-00:00

Identify the statement that requires the use of "Use case study". One of the options may be correct. Mark the correct choice by clicking it.

1. All phases, i.e., conceptual, design, and detail phases, are divided in architectural styles.
   - True
   - False

2. The phases of a project follow a pre-defined sequence in the use case study.
   - True
   - False

3. The phases of the project in the use case study follow the conceptual, design, and detail phases in an architectural style.
   - True
   - False

4. The phases follow a predictable sequence in the use case study.
   - True
   - False

5. Which of the following components in the conceptual phase is necessary to be included in the Use Case study?
   - True
   - False

6. Which of the following components is a part of the conceptual phase?
   - True
   - False

7. Which of the following components is not part of the conceptual phase?
   - True
   - False

8. Which of the following components is part of the conceptual phase?
   - True
   - False

9. Determine the sequence of the following components in the conceptual phase for the Use Case study:
   - True
   - False

10. Which of the following components is necessary to be included in the Use Case study?
    - True
    - False
