Assignment 1

1. What is the best algorithm for insertion sort?

2. What is the best algorithm for selection sort?

3. What is the best algorithm for bubble sort?

4. What is the best algorithm for merge sort?

5. What is the best algorithm for quick sort?

6. What is the best algorithm for heap sort?

7. What is the best algorithm for insertion sort?

8. What is the best algorithm for selection sort?

9. What is the best algorithm for bubble sort?

10. What is the best algorithm for merge sort?

11. What is the best algorithm for quick sort?

12. What is the best algorithm for heap sort?

13. What is the best algorithm for insertion sort?

14. What is the best algorithm for selection sort?

15. What is the best algorithm for bubble sort?

16. What is the best algorithm for merge sort?

17. What is the best algorithm for quick sort?

18. What is the best algorithm for heap sort?

19. What is the best algorithm for insertion sort?

20. What is the best algorithm for selection sort?

21. What is the best algorithm for bubble sort?

22. What is the best algorithm for merge sort?

23. What is the best algorithm for quick sort?

24. What is the best algorithm for heap sort?

25. What is the best algorithm for insertion sort?

26. What is the best algorithm for selection sort?

27. What is the best algorithm for bubble sort?

28. What is the best algorithm for merge sort?

29. What is the best algorithm for quick sort?

30. What is the best algorithm for heap sort?
