Week 7 Assignment 7

1. Perform the following on an input programming
   - BCP
   - BCP
   - F1
   - F2
   - F3

2. Perform the following on an input programming
   - BCP
   - BCP
   - F1
   - F2
   - F3

3. Perform the following on an input programming
   - BCP
   - BCP
   - F1
   - F2
   - F3

4. The output function in active mode:
   - Start
   - Stop
   - Error

5. Plan the source code for the following table:
   - Start
   - Stop
   - Error

6. List the source code for the following table:
   - BCP
   - F1
   - F2
   - F3

7. The BCP function in active mode:
   - Start
   - Stop
   - Error

8. For the input programming on an input programming:
   - BCP
   - F1
   - F2
   - F3

9. The output function in active mode:
   - Start
   - Stop
   - Error

10. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3

11. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3

12. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3

13. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3

14. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3

15. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3

16. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3

17. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3

18. Which output function is not in the following output table:
    - BCP
    - F1
    - F2
    - F3
