Week 8 Assignment 8

Welcome to the Week 8 Assignment! This assignment will require you to apply various concepts we've covered throughout the course. You will need to work on this assignment in groups of two and submit a single group report.

1. Define the term "cloud computing."
2. Provide the benefits and drawbacks of cloud computing.
3. List at least three cloud computing services.
4. Discuss the current trends in cloud computing.
5. Identify the key components of cloud architecture.
6. Explain the process of deploying a cloud application.
7. Evaluate the security challenges in cloud computing.
9. Discuss the future of cloud computing.
10. Analyze the cost-effectiveness of cloud computing compared to traditional computing.

Due Date: Submit your assignment by the end of the week.

Good luck on your assignment!
