## Assignment 4

**Due:** Oct-26, 2019, 23:59 BST

### Instructions

**Objective:** Develop a system using INF Network protocol. Using the continuous mechanisms, your system should identify the critical areas of the network.

**Notes:**
- Your system should be scalable.
- Your system should handle updates in real-time.
- Your system should be efficient and responsive.

### Questions

1. **Write a system using INF Network protocol.**
   - Your system should be scalable.
   - Your system should handle updates in real-time.
   - Your system should be efficient and responsive.

2. **Design a system using INF Network protocol.**
   - Your system should be scalable.
   - Your system should handle updates in real-time.
   - Your system should be efficient and responsive.

### Additional Notes

- **Weekly Topics:**
  - INF Network Protocol
  - Scalability and Efficiency

- **Submission:**
  - Submit your system design via email by Oct-26, 23:59 BST.
  - Include a detailed report on the design and implementation.

---

**Unit 5 - Week 4**

**Course Outline**

- **Topic:** INF Network Protocol
- **Skills:** System Design, Scalability, Efficiency

**Notes:**
- Your system should be scalable.
- Your system should handle updates in real-time.
- Your system should be efficient and responsive.

---
