Unit 3 - Week 3

Assignment 3

The data due date for submitting this assignment has passed. Your scores are not available at this time.

Due on 2019-09-31, 23:59 EST.

Task 1: Problem 1

1. Which of the following is functioned by environment?
   - A. Hardware
   - B. Sound card
   - C. Probability
   - D. All of the above

Task 2: Problem 2

2. System performance use NOT (Not In) for:
   - A. Increase major bottlenecks.
   - B. A new batch of software standards.
   - C. Defining a single and end product for OS
   - D. Sensing ramp-up of response time to find potential hard to detect

Task 3: Problem 3

3. If the system fails, most operating system write error information to a
   - A. Log
   - B. Another running process
   - C. Memory
   - D. Recursively used file

Task 4: Problem 4

4. The given phrase in context is:
   - A. Off-line
   - B. On-line
   - C. Real-time
   - D. None of the above

Task 5: Problem 5

5. How is a thread in Scheduling?
   - A. Given
   - B. Feedback
   - C. Through
   - D. All of the above

Task 6: Problem 6

6. Processor is only assigned to a thread in the context of what?
   - A. Tread Control
   - B. Serial Scheduling
   - C. Memory

Task 7: Problem 7

7. The given phrase in context is:
   - A. Off-line
   - B. On-line
   - C. Real-time
   - D. None of the above

Task 8: Problem 8

8. Which of the following is NOT true?
   - A. Process scheduler selects among the available processes in the ready queue
   - B. Time sharing operates on a single processor
   - C. Process gives CPU if it finds an idle processor
   - D. None of the above

Task 9: Problem 9

9. If the system fails, most operating system write error information to a
   - A. Log
   - B. Another running process
   - C. Memory
   - D. Recursively used file

Task 10: Problem 10

10. The given phrase in context is:
    - A. Off-line
    - B. On-line
    - C. Real-time
    - D. None of the above

Task 11: Problem 11

11. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above

Task 12: Problem 12

12. The given phrase in context is:
    - A. Off-line
    - B. On-line
    - C. Real-time
    - D. None of the above

Task 13: Problem 13

13. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above

Task 14: Problem 14

14. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above

Task 15: Problem 15

15. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above

Task 16: Problem 16

16. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above

Task 17: Problem 17

17. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above

Task 18: Problem 18

18. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above

Task 19: Problem 19

19. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above

Task 20: Problem 20

20. Which of the following statements are NOT true for the thread?
    - A. There is no thread in the context of what?
    - B. It is a thread process that can run
    - C. It is a thread process that can run
    - D. All of the above
