Assignment 6

Unit 8 - Week 6

Assignment due on 2018-06-06, 2018-06.

1. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

2. Which of the following statements about data warehousing?
   (a) Data warehousing is the process of extracting a useful pattern from spatial datasets (b) Data warehousing is the process of extracting a useful pattern from non-spatial datasets (c) Data warehousing is the process of extracting a useful pattern from spatial and non-spatial datasets (d) Data warehousing is the process of extracting a useful pattern from spatial datasets and non-spatial datasets (e) Data warehousing is the process of extracting a useful pattern from spatial datasets and non-spatial datasets

3. Which of the following statements about data warehousing?
   (a) Data warehousing is the process of extracting a useful pattern from spatial datasets (b) Data warehousing is the process of extracting a useful pattern from non-spatial datasets (c) Data warehousing is the process of extracting a useful pattern from spatial and non-spatial datasets (d) Data warehousing is the process of extracting a useful pattern from spatial datasets and non-spatial datasets (e) Data warehousing is the process of extracting a useful pattern from spatial datasets and non-spatial datasets

4. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

5. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

6. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

7. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

8. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

9. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

10. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

11. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

12. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

13. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

14. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

15. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

16. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

17. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

18. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

19. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing

20. Which of the following terms (a) and (c) are related to data warehousing?
   (b) Data mining (c) Data warehousing (d) Data mining (e) Data warehousing
