Assignment 1

A. Assignment Instructions

1. Submit your completed Assignment 1 by a specific date. For details, please check the course syllabus or announcements.

2. Begin by reading the scenario provided in the assignment instructions. Ensure you understand all the context and requirements.

3. Analyze the situation and identify potential solutions. Consider different perspectives and outcomes for each strategy.

4. Develop a comprehensive plan that outlines the steps you will take to implement your solution. Include timelines and checkpoints.

5. Create a visual representation of your plan, such as a flowchart or diagram, to illustrate your approach.

6. Justify your decisions and reasoning. Explain why you chose certain strategies over others.

7. Review your plan for any potential risks or challenges and propose contingency plans.

8. Submit your completed Assignment 1 on the designated platform by the due date.
