Unit 10 - Week 8

Assessment

The following is an assessment of the design process and its implications.

1. Which of the following is an objective of design psychology?
   a. Design goal definition
   b. User interface design evaluation
   c. Facility user interface
   d. Quality of design efficiency

2. Which of the following is an important aspect of the design process?
   a. Design goals
   b. User interface evaluation
   c. Facility user interface
   d. Quality of design efficiency

3. Which of the following is an important aspect of the design process?
   a. Design goals
   b. User interface evaluation
   c. Facility user interface
   d. Quality of design efficiency

4. Which of the following is an important aspect of the design process?
   a. Design goals
   b. User interface evaluation
   c. Facility user interface
   d. Quality of design efficiency

5. Which of the following is an advantage over the use of the expert patient?
   a. Reduction of staff
   b. Suitable allocation of methods to devices
   c. Increase of efficiency
   d. Increased delegation of responsibilities

6. Which of the following is a primary focus of the design process?
   a. Allocation of responsibilities to devices
   b. Allocation of devices to objects
   c. Allocation of objects to devices
   d. Allocation of devices to objects

7. Which of the following is an advantage over the use of the expert patient?
   a. Reduction of staff
   b. Suitable allocation of methods to devices
   c. Increase of efficiency
   d. Increased delegation of responsibilities

8. Which of the following is a primary focus of the design process?
   a. Allocation of responsibilities to devices
   b. Allocation of devices to objects
   c. Allocation of objects to devices
   d. Allocation of devices to objects

9. Which of the following is an advantage over the use of the expert patient?
   a. Reduction of staff
   b. Suitable allocation of methods to devices
   c. Increase of efficiency
   d. Increased delegation of responsibilities

10. Which of the following is a primary focus of the design process?
    a. Allocation of responsibilities to devices
    b. Allocation of devices to objects
    c. Allocation of objects to devices
    d. Allocation of devices to objects
