Unit 2 - Overview of Cellular Evolution and Wireless Technologies

Assignment 1

Due on 2019-08-14, 23:59:59

1. Conduct a literature review on the impact of cellular technology on society. Include in your report:
   - The history and development of cellular technology
   - The role of cellular technology in modern society
   - The potential future developments of cellular technology

2. Conduct a survey of cellular technology usage among students. Include the following:
   - Methodology
   - Results
   - Conclusion

3. Conduct a case study of a cellular technology application in a specific field. Include in your report:
   - Background
   - Methodology
   - Results
   - Conclusion

4. Write a short essay on the ethical implications of cellular technology. Include in your report:
   - Introduction
   - Ethical issues
   - Conclusion

5. Write a short essay on the environmental impact of cellular technology. Include in your report:
   - Introduction
   - Environmental issues
   - Conclusion

6. Write a short essay on the economic impact of cellular technology. Include in your report:
   - Introduction
   - Economic issues
   - Conclusion

7. Write a short essay on the social impact of cellular technology. Include in your report:
   - Introduction
   - Social issues
   - Conclusion

8. Write a short essay on the legal impact of cellular technology. Include in your report:
   - Introduction
   - Legal issues
   - Conclusion

9. Write a short essay on the security impact of cellular technology. Include in your report:
   - Introduction
   - Security issues
   - Conclusion

10. Write a short essay on the economic impact of cellular technology. Include in your report:
    - Introduction
    - Economic issues
    - Conclusion
