Assignment 1

The due date for submitting this assessment has passed. As per our records you have not submitted this assignment.

1) Why does design matter?  
   - Because good design can provide for everyone's needs  
   - Because designed environment around us affects the way we feel  
   - Because designing the environment makes us confident  
   - Because the designed environment changes with our fluid and shifting moods

   Accepted Answers:  
   Because the designed environment around us affects the way we feel  
   No, the answer is incorrect.  
   Score: 0  

2) Which of these features are seen in well-designed office chairs?  
   - Lumbar support adjustment  
   - Hard seat surfaces  
   - Pneumatic adjustment lever  
   - Five prongs with wheels

   Accepted Answers:  
   Lumbar support adjustment, pneumatic adjustment lever  
   No, the answer is incorrect.  
   Score: 0  

3) Which of the following statements are appropriate descriptions of design?  
   - Design refers to thinking about the way things look.  
   - Design can change governments and religions.  
   - Design impacts human psychology.  
   - The best designs are very expensive.

   Accepted Answers:  
   Design refers to thinking about the way things look, design impacts human psychology.  
   No, the answer is incorrect.  
   Score: 0  

4) How does design shape culture?  
   - Design is affected by the available materials and technology at any given point of time.  
   - Design gives rise to certain lifestyle trends that influence culture.  
   - The cultural activities in a society have no impact on what designs will emerge from it.  
   - Design preserves continuity between past, present and future.

   Accepted Answers:  
   Design is affected by the available materials and technology at any given point of time.  
   Design gives rise to certain lifestyle trends that influence culture.  
   No, the answer is incorrect.  
   Score: 0  

5) Which of the following statements are true about user experience (UX) laws?  
   - They emphasize regard for the freedom and equality of users.  
   - They emphasize regard for the socio-economic status of users.  
   - They conclude that start to use open source software.  
   - They allow user experience researchers to be UX activists.

   Accepted Answers:  
   They emphasize regard for the freedom and equality of users.  
   They allow user experience researchers to be UX activists.  
   No, the answer is incorrect.  
   Score: 0  

6) You viewed the example of a skillfully designed fixture used to conceal the wiring of lights in a temple. This is an example of  
   - Graphic design  
   - Communication design  
   - Textile design  
   - Industrial design

   Accepted Answers:  
   Graphic design  
   No, the answer is incorrect.  
   Score: 0  

7) Why is the design process described as "idiosyncratic"?  
   - The same process can be repeated for designing many products.  
   - In most manufacturing, many scales can be made of the same product.  
   - Prototypes have to be revisited many times before manufacture.  
   - The same design process can be applied to come up with many products for the same users.

   Accepted Answers:  
   Prototypes have to be revisited many times before manufacture.  
   No, the answer is incorrect.  
   Score: 0  

8) In a residential house, the height of the door and the bathroom for opening and closing a door will depend on:  
   - The maximum reach of a 6-year-old child  
   - Ease of use for an adult, without requiring to bend  
   - The centre of the door  
   - Shoulder level of an adult

   Accepted Answers:  
   The maximum reach of a 6-year-old child  
   No, the answer is incorrect.  
   Score: 0
