No, the answer is incorrect.
Score: 0

Accepted Answers:
Satisfying current and future needs
Set of different products that a company provides
Decisions on cost and revenue

- 3) Which of the following are part of portfolio-architecture? 1 point
- Modular platform
 Fixed unshared
 Massively customizable
 All the above

No, the answer is incorrect.
Score: 0

Accepted Answers:
All the above

- 4) Which one of the following have different products that do not share their any components or modules? 1 point
- Fixed unshared single offer
 Modular generations
 Fabricate to fit models
 None of these

No, the answer is incorrect.
Score: 0

Accepted Answers:
Fixed unshared single offer

- 5) Which of the following category doesn't belong to modular architecture? 1 point
- Consumable
 Standard
 Parametric
 Bespoke

No, the answer is incorrect.
Score: 0

Accepted Answers:
Bespoke

- 6) Configuring the product by selecting a series of different modules that make up the product belongs to _____ 1 point
- Modular consumables
 Customized bespoke architecture
 Modular parametric architecture
 Customized parametric architecture

No, the answer is incorrect.
Score: 0

Accepted Answers:
Customized parametric architecture

- 7) An example of the modular consumable architecture 1 point
- Canon lens
 PC modules
 Ink-cartridges
 Automobiles

No, the answer is incorrect.
Score: 0

Accepted Answers:
Ink-cartridges

- 8) For choosing the architecture, the flowchart suggests which of the statistical measures to be used for evaluating customer population 1 point
- RMS
 Mean
 Kurtosis
 Standard deviation

No, the answer is incorrect.
Score: 0

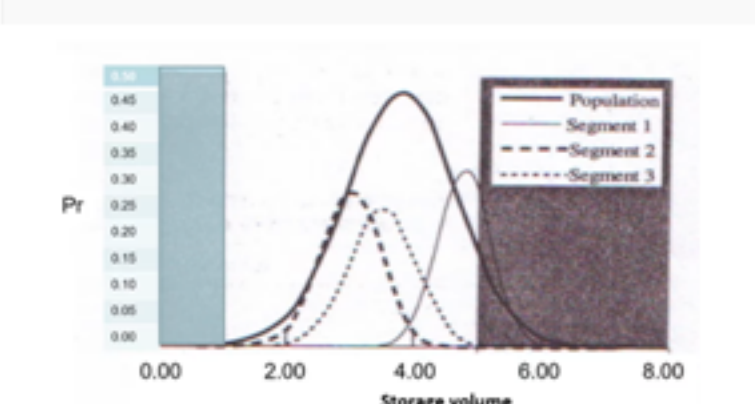

Accepted Answers:
Mean
Standard deviation

- 9) If the segment standard deviation is equal to the population standard deviation value, then _____ architecture is chosen 1 point
- Fixed unshared architecture
 Modular generation platform
 Modular product family
 Adjustable portfolio architecture

No, the answer is incorrect.
Score: 0

Accepted Answers:
Adjustable portfolio architecture

- 10) For the normal distribution shown below, find the architecture best suitable 1 point

- 2 model modular
 Integral
 3 model modular
 Fixed

No, the answer is incorrect.
Score: 0

Accepted Answers:
3 model modular
