Unit 10 - Week 8: P2P Anonymous Communication. The Anonymous Communication on the Internet through TOR Network. An Introduction to TOR Browser, Hidden Services on TOR Network, and Summary of the Course

Assignment 8

Due on 2018-11-21 23:59:59

1. Consider the following statements about the anonymity and communication on the Internet. Assume the Internet is a large network that is not centrally controlled and contains many nodes.

   a. Consider the following statement: "The Internet is an anonymous communication network." Evaluate the correctness of the statement.

   b. Consider the following statement: "The Internet is a communication network that is not anonymous." Evaluate the correctness of the statement.

2. Consider the following statements about the TCP/IP protocol and its role in the Internet.

   a. Consider the following statement: "TCP/IP is a communication protocol that is used exclusively on the Internet." Evaluate the correctness of the statement.

   b. Consider the following statement: "TCP/IP is a communication protocol that is used on many networks, not just the Internet." Evaluate the correctness of the statement.

3. Think two statements that are not obvious to someone unfamiliar with the Internet. Describe the statements.

   a. Consider the following statement: "The Internet is a network of networks." Evaluate the correctness of the statement.

   b. Consider the following statement: "The Internet is a network of computers that are connected together." Evaluate the correctness of the statement.

4. Consider the following statements about the Internet and its role in society.

   a. Consider the following statement: "The Internet is a tool for communication and information sharing." Evaluate the correctness of the statement.

   b. Consider the following statement: "The Internet is a tool for entertainment and leisure." Evaluate the correctness of the statement.

5. Consider the following statements about the use of the Internet.

   a. Consider the following statement: "The Internet is a tool for connecting people around the world." Evaluate the correctness of the statement.

   b. Consider the following statement: "The Internet is a tool for education and training." Evaluate the correctness of the statement.

6. Consider the following statements about the use of the Internet.

   a. Consider the following statement: "The Internet is a tool for commerce and business." Evaluate the correctness of the statement.

   b. Consider the following statement: "The Internet is a tool for government and politics." Evaluate the correctness of the statement.

7. Consider the following statements about the use of the Internet.

   a. Consider the following statement: "The Internet is a tool for entertainment and leisure." Evaluate the correctness of the statement.

   b. Consider the following statement: "The Internet is a tool for communication and information sharing." Evaluate the correctness of the statement.

8. Consider the following statements about the use of the Internet.

   a. Consider the following statement: "The Internet is a tool for education and training." Evaluate the correctness of the statement.

   b. Consider the following statement: "The Internet is a tool for government and politics." Evaluate the correctness of the statement.
