Assignment 12

Due: 2020-04-03, 23:59 IST.

You are asked to submit this assignment. The assignment is worth 30 marks.

Course Outline

Chapter 13 - Week 12

1. Consider a question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

2. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

3. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

4. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

5. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

6. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

7. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

8. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

9. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

   The answer is 50.

   Answer: Incorrect.

10. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

11. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

12. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

13. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

14. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

15. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

16. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

17. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

18. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

19. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

20. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

21. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

22. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

23. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

24. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.

25. Consider the following question in which the maximum answer is 50, 70, and 90. The first question to use, write in the space above.

    The answer is 50.

    Answer: Incorrect.
