Week 1 Assignment 1

Due date: Oct 10th, 2018

1. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

2. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

3. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

4. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

5. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

6. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

7. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

8. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

9. Consider the following experiment by the original observations and select the correct option:

   - Which of the following observations is correct?
   - A
   - B
   - C
   - D
   - E

   - Which of the following conclusions is correct?
   - A
   - B
   - C
   - D
   - E

10. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

11. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

12. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

13. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

14. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

15. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

16. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

17. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

18. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

19. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

20. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

21. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

22. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

23. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

24. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E

25. Consider the following experiment by the original observations and select the correct option:

    - Which of the following observations is correct?
    - A
    - B
    - C
    - D
    - E

    - Which of the following conclusions is correct?
    - A
    - B
    - C
    - D
    - E
