<td>1. What is a concern that prompts the need for development studies and research?</td>
<td>2 points</td>
</tr>
</tbody>
</table>
| - (A) The nature and causes of global and local inequality  
- (B) Preconditions pertaining to development cooperation and interventions  
- (C) Consequences, effects, and impact of development cooperation  
- (D) All of the above  
| No, the answer is incorrect.  
Accepted Answers: (B) Precondition  
Draft of the above  |       |
| 2. Which of the terms underpins the assumptions and approaches of Action Research?  | 2 points |
| - (A) Case studies  
- (B) Participatory inquiry  
- (C) Participatory methods  
- (D) None of the above  
| No, the answer is incorrect.  
Accepted Answer: (C) Participatory methods  
Draft of the above  |       |
| 3. Multi-development research belongs in the category of?  | 2 points |
| - (A) Applied research  
- (B) Basic research  
- (C) Descriptive research  
- (D) Exploratory research  
| No, the answer is incorrect.  
Accepted Answer: (D) Exploratory research  
Draft of the above  |       |
| 4. The purpose of Summative Evaluation research is  | 2 points |
| - (A) Improving an intervention  
- (B) Stating problems in a programme  
- (C) Determining effectiveness of human interventions and actions  
- (D) Interpreting the nature and sources of human and social problems  
| No, the answer is incorrect.  
Accepted Answer: (A) Improving an intervention  
Draft of the above  |       |
| 5. Which of the following describes an epidemiological question?  | 2 points |
| - (A) What is the form and nature of reality?  
- (B) What is regarded as acceptable knowledge  
- (C) How can the investigator go about finding out whatever he or she believes can be known?  
- (D) Only (a) and (b)  
| No, the answer is incorrect.  
Accepted Answer: (A, B)  
Draft of the above  |       |
| 6. Which of the following is defined as ‘critical realism’?  | 2 points |
| - (A) Application of methods of natural sciences to study of social reality
