- An unconditioned stimulus
- A conditioned Stimulus
- An unconditioned response
- A conditioned response

No, the answer is incorrect.

Score: 0

Accepted Answers:

A conditioned Stimulus

4) Consider the following situation: The last three times little Vani visited Dr. Kumar for checkups, he administered a painful preventive immunization injection that left her in tears. Today, when her mother takes her for another checkup, Vani begins to sob as soon as she comes face to face with Dr. Kumar, even before he has had a chance to say hello. Answer the following question: For a number of visits Dr. Kumar did not give Vani any injections and after a number of such 'injection-less' visits, Vani stopped crying in Dr. Kumar's presence. This process can be explained as: 1 point

- Generalization
- Discrimination
- Extinction
- Spontaneous Recovery

No, the answer is incorrect.

Score: 0

Accepted Answers:

Extinction

5) Consider the following situation: The last three times little Vani visited Dr. Kumar for checkups, he administered a painful preventive immunization injection that left her in tears. Today, when her mother takes her for another checkup, Vani begins to sob as soon as she comes face to face with Dr. Kumar, even before he has had a chance to say hello. Answer the following: The crying, as a result of the injection, was: 1 point

- An unconditioned stimulus
- A conditioned Stimulus
- An unconditioned response
- A conditioned response

No, the answer is incorrect.

Score: 0

Accepted Answers:

An unconditioned response

6) Learning is the same as maturation. (True / False) 1 point

- TRUE
- FALSE

No, the answer is incorrect.

Score: 0

Accepted Answers:

FALSE

7) Consider the following situation: The last three times little Vani visited Dr. Kumar for checkups, he administered a painful preventive immunization injection that left her in tears. Today, when her mother takes her for another checkup, Vani begins to sob as soon as she comes face to face with Dr. Kumar, even before he has had a chance to say hello. Answer the following question: Suppose that due to painful experience Vani starts crying seeing any doctor then she has probably undergone: 1 point

- Generalization
- Discrimination
- Extinction
- Spontaneous Recovery

No, the answer is incorrect.

Score: 0

Accepted Answers:

Generalization

8) Monthly salary is an example of which type of schedule of reinforcement: 1 point

- Fixed Ratio
- Fixed Ratio
- Fixed Interval
- Variable Interval

No, the answer is incorrect.

Score: 0

Accepted Answers:

Fixed Interval

9) You set out for college this morning and it started raining unexpectedly. Now you have made **1 point** it a point to carry an umbrella with you to avoid getting wet. This behaviour can be best be described in terms of:

- Positive Reinforcement
- Negative Reinforcement
