# Unit 9 - Week 7 : Cognition & Emotion

## Course outline

How to access the portal?

Testing the pre-requisites

Week 1 : Course Introduction and Knowledge

Week 2: Knowledge, Visual Imagery

Week 3 : Language

Week 4 : Language - II

Week 5: Language | Decision Making

Week 6 : Problem Solving | Creativity

Week 7 : Cognition & Emotion

Lecture 31 : Cognition & Emotion - I

Lecture 32 - Cognition & Emotion - II

Lecture 33 - Cognition & Emotion - III

Lecture 34 - Cognition & Emotion - IV

Lecture 35 - Cognition &

## Assignment 7

The due date for submitting this assignment has passed. **Due on 2018-03-28, 23:59 IST.**

### Submitted assignment

1) The tendency in people to recall more positive memories, when they are in positive mood state is termed as \_\_\_ **1 point**

- Mood congruent memory
- Mood incongruent memory
- Response congruity
- Memory effect

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*Mood congruent memory*

2) In Knealy (1997) study on map routes, the MSDM effect is observed predominately in \_\_\_ **1 point**

- Cued recall
- Free recall
- Independent of the retrieval cues
- Explicit recall

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*Free recall*

3) The cognitive processes on certain moral rules, leads to which one of the following with the personal dilemmas. **1 point**

- Increases the utilitarian judgment tendency
- Decreases the utilitarian judgment tendency
- a or c
- It's indifferent for personal dilemmas

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*a or c*

4) Koenings et al. (2007) found that \_\_\_ damaged patients made more than twice as many utilitarian judgments than healthy controls. **1 point**

- DLPFC

Emotion - V

- Quiz : Assignment 7
- Assignment 7 Solution
- Week-7 feedback

**Week 8:  
Cognitive  
Development**

- OrbitoPFC
- VMPFC
- ACC

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*VMPFC*

5) The tendency to exaggerate the likelihood of positive events in the future but minimizing the likelihood of negative events is known as **1 point**

- Expectancy error
- Optimistic bias
- Error monitoring
- Attentional control

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*Optimistic bias*

6) Lief & Feltowicz (1995) study on adult patients who admitted that they are victims of childhood sexual abuse and it was predominately due to **1 point**

- Suggestive therapy -> false memory
- Suggestive therapy -> memory recall
- Spontaneous recovery
- Repressed memory

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*Suggestive therapy -> false memory*

7) According to Cahir & Thomas (2010) study on decision making involving betting on imaginary horse races, which of the following holds true **1 point**

- People in positive mood state are risk seeking
- People in negative mood state are risk averse
- Mood state is independent of the decision
- Both a and c

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*People in negative mood state are risk averse*

8) Anxiety is typically associated with **1 point**

- Avoidance of risky decision making
- Approaching towards risky decision
- More inclined to neutral state
- Approaches to reward seeking

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*Avoidance of risky decision making*

9) Murty et al., (2010) meta- analysis supports that \_\_\_ areas activation is crucial for good long term memory for emotional memory. **1 point**

- Amygdala
- Parts of temporal lobe

- ACC
- Both a and b

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*Both a and b*

10) Schwarz (2000) concluded that being in a sad mood causes people to use \_\_\_\_ processing. **1 point**

- Analytic processing
  - Systematic processing
  - Heuristic processing
  -
- both a and b

**No, the answer is incorrect.**

**Score: 0**

**Accepted Answers:**

*both a and b*
