Assignment B

Objective:

To explore the economic impact of renewable energy sources.

Task:

1. Research the economic benefits of renewable energy sources and prepare a presentation on the topic.
2. Create a timeline showing the growth of renewable energy industries over the past decade.
3. Develop a case study on a successful renewable energy project in your region.
4. Write a letter to your local government advocating for the adoption of renewable energy policies.

Grading Criteria:

- Economic benefits research: 50% (maximum 10 points)
- Timeline development: 30% (maximum 6 points)
- Case study creation: 20% (maximum 4 points)
- Letter writing: 10% (maximum 2 points)

Submission Deadlines:

- All research reports due by the 15th of the month.
- Timelines due by the 20th of the month.
- Case studies due by the 25th of the month.
- Letters due by the 30th of the month.

Penalties for late submissions:

- 1 point deduction per day late.
