Assignment 2

The due date for submitting this assignment has passed.

Due on 2021-02-07, 22:59 IST.

As per our records you have not submitted this assignment.

1) What is the rationale behind biometric linkage to the ration card?
   - To prevent ineligible people from receiving ration.
   - To prevent duplication of ration cards.
   - To prevent beneficiaries from receiving ration beyond eligibility.
   - To ensure a complete database of citizens
   Score: 1 point
   Accepted Answers:
   - Prevent ineligible people from receiving ration
   - To ensure a complete database of citizens

2) The gift city initiative is a reflection of:
   - Establishing order in the disarray
   - Instituting a human agency
   - Enhancing the user-experience
   - None of the above
   Score: 1 point
   Accepted Answers:
   - Establishing order in the disarray
   - Instituting a human agency

3) What precautions can you draw from Indias global hunger mission?
   - There is an ongoing global food slide.
   - It is not testament to the success of Aadhaar based biometric authentication.
   - The National Food Security Act (2013) is an essential legal framework.
   - None of the above.
   Score: 1 point
   Accepted Answers:
   - There is an ongoing global food slide.
   - It is not testament to the success of Aadhaar based biometric authentication.

4) Aadhar's unique number is: at least three digits (PIN). They are a construction tolerance in their first attempt, then biometric verification fails and they are delayed access to ration. The person then goes to the Aadhaar Centre to correct the error if any. The connection is not registered. The PIN system verifies its credentials with an old local database and adds their value to them on account of knowing them. What conclusion can you draw about the Aadhaar linkage to ration cards from these scenarios?
   - PIN owner is in violation of the spirit of National Food Security Act (2013).
   - There is a local system appointed by the PFS owner and beneficiaries.
   - Construction tolerances need to rely on other modes of verification.
   - None of the above.
   Score: 1 point
   Accepted Answers:
   - PIN owner is in violation of the spirit of National Food Security Act (2013).

5) “Each city has to formulate its own concept, vision, mission, and plan (proposals) for a Smart City that is appropriate to its local context, resources and needs of service.” What is his approach reflective of?
   - It is a one-size-fits-all design.
   - It is a centralized process.
   - It is deeply rooted in technology.
   - It is a participatory approach.
   Score: 1 point
   Accepted Answers:
   - It is a participatory approach.

6) According to Szwaja Sensen, complete:
   - City: ________
   - Served city: ________
   - Technology in command, technology as a tool
   - Technology as a tool, technology in command
   - Autocratic, Invisible
   - None of the above
   Score: 1 point
   Accepted Answers:
   - Technology in command, technology as a tool

7) According to the case study, how do beneficiaries receive information about the status of food grants disbursement?
   - Through SMS messages
   - By relying on the previous month’s data
   - Observing their neighbors getting ration
   - Can’t say
   Score: 1 point
   Accepted Answers:
   - By relying on the previous month’s data

8) What does “development with dignity” mean?
   - Having the same technology, adaptation in all places to ensure equality
   - Enabling participatory decision making
   - Recognition of citizenship by administrative digitization
   - None of the above
   Score: 1 point
   Accepted Answers:
   - None of the above

9) What can you say about Richard Benett’s idea of a smart city?
   - There is a very close relationship between form and function
   - It is an ordered, open ecosystem
   - Everlasting control over space enhances productivity
   - None of the above
   Score: 1 point
   Accepted Answers:
   - There is a very close relationship between form and function

10) What was set to be extensively used in Le Corbusier’s design of the “city for 3 million”?
    - Cement
    - Reinforced Concrete
    - Steel beams
    - None of the above
    Score: 1 point
    Accepted Answers:
    - Reinforced Concrete
