 TITLE: Assessment 07

Task: The task for preparing this assessment has passed.

Assessment Title: What's the future for wildlife in your area?

Task Instructions:

1. deadlines: 10th of this week
2. Task: To reflect on the conservation status of wildlife in your area and to consider how it might change in the future.

Instructions:

1. Research the current status of wildlife in your area using local and national databases.
2. Identify any threats to wildlife in your area, such as habitat loss, pollution, or invasive species.
3. Consider how these threats might change in the future, due to climate change, human population growth, or other factors.
4. Evaluate the effectiveness of current conservation measures in your area, and suggest any changes that could be made.
5. Consider the role of education and public awareness in promoting wildlife conservation.
6. Think about ways to involve local communities in wildlife conservation efforts.
