Assignment 2

The due date for submitting this assignment has passed.

As per our records you have not submitted this assignment.

1. A survey will be given to 50 employees randomly selected from the freshers in a company. What is the population?
   - 1 point
   - The 50 selected employees
   - All the freshers in the company
   - All the employees in the company
   - No, the answer is incorrect.
   - Accepted Answers:
     - All the freshers in the company
   - Score: 0

2. List of all units of the population is called:
   - 1 point
   - Sampling frame
   - Elements
   - Context
   - Sample
   - No, the answer is incorrect.
   - Score: 0
   - Accepted Answers:
     - Sampling frame

3. Why do we need sampling?
   - 1 point
   - The population is too large and too expensive to survey
   - Reduces cost of investigation, time required and number of personnel involved
   - Complete enumerations are practically impossible when the population is infinite
   - All of the above
   - No, the answer is incorrect.
   - Score: 0
   - Accepted Answers:
     - All of the above

4. Random sampling is also called:
   - 1 point
   - Probability sampling
   - Non-probability sampling
   - Random error
   - None of the above
   - No, the answer is incorrect.
   - Score: 0
   - Accepted Answers:
     - Probability sampling

5. Sampling error can be reduced by:
   - 1 point
   - Increasing the sample size
   - Increasing response rate
   - Reducing non-response error
   - Correcting a faulty sample frame
   - No, the answer is incorrect.
   - Score: 0
   - Accepted Answers:
     - Increasing the sample size

6. Swot of a football team for FIFA world cup is called as:
   - 1 point
   - Random sampling
   - Systematic sampling
   - Purposive sampling
   - Cluster sampling
   - No, the answer is incorrect.
   - Score: 0
   - Accepted Answers:
     - Purposive sampling

7. The biases which are considered as causes of non-sampling error include:
   - 1 point
   - Nonsensical methods of data collection
   - Insufficient or ambiguous questionnaires
   - Lack of monitoring and supervision of primary staff
   - All of the above
   - No, the answer is incorrect.
   - Score: 0
   - Accepted Answers:
     - All of the above

8. What are the criteria for determining sample size?
   - 1 point
   - Nature of universe
   - Types of sampling
   - Nature of study
   - All of the above
   - No, the answer is incorrect.
   - Score: 0
   - Accepted Answers:
     - All of the above

9. What happens to margin error when sample size decreases?
   - 1 point
   - It increases
   - It decreases
   - Remains constant
   - Decreases proportionately
   - No, the answer is incorrect.
   - Score: 0
   - Accepted Answers:
     - It increases

10. How is a confidence level linked to sample size?
    - 1 point
    - Positively
    - Negatively
    - Constant
    - Not linked
    - No, the answer is incorrect.
    - Score: 0
    - Accepted Answers:
      - Positively
