Unit 9 - Week8: Population, Health and Development

Course outline

How to access the portal

Week 1:Introduction,Consumer Behaviour, Demand and Supply

WEEK 2: Elasticities of Demand and Supply and Theories of Production.

WEEK 3: Theories of Cost and Grossman's Demand for Healthcare

WEEK4: Market Imperfections, Healthcare Financing

WEEK 5: Health Insurance

WEEK 6:Impact Evaluation, Social Determinants of Health

WEEK 7:Economic Externalities, Public and Private Goods

Week8: Population, Health and Development

- Lecture 45: Economics of Health and Healthcare
- Lecture 46: Development Indices
- Lecture 47: Social Determinants of Health
- Lecture 48: Fundamental Concepts and Theories Related to Population,Health & Development
- Lecture 49: Population Composition and demographic Dividend
- Lecture 50: Theories Related to Fertility,Population Growth and Socio-Economic Advancements
- Quiz : Week 8 Assessment
- Feedback For Week 8
- Solution for Assignment - 8

Week 8 Assessment

The due date for submitting this assignment has passed. **Due on 2019-09-25, 23:59 IST.**
As per our records you have not submitted this assignment.

1) The population is more or less stable during *1 point*

- First phase of demographic transition
- Fourth phase of demographic transition
- Third phase of demographic transition
- Second and third phase of demographic transition
- First and fourth phase of demographic transition

No, the answer is incorrect.
Score: 0
Accepted Answers:
First and fourth phase of demographic transition

2) Success of second demographic dividend depends upon *1 point*

- Savings rate
- A population's overall dependency rate
- Employment rate
- A and C
- All of the above

No, the answer is incorrect.
Score: 0
Accepted Answers:
A and C

3) Replacement level of fertility is *1 point*

- Which keeps population growth rate stable
- Average number of children taken birth to a woman in her reproductive age
- When fertility rate is higher than mortality rate
- A and B
- All of the above

No, the answer is incorrect.
Score: 0
Accepted Answers:
A and B

4) Which of the following statements about demographic transition is incorrect *1 point*

- Mortality rate declines first and the fertility rate starts declining with the course of development
- Population growth is negative when birth rate starts falling in third stage
- Epidemiological transition theory is in sync with demographic transition theory
- All of the above are correct

No, the answer is incorrect.
Score: 0
Accepted Answers:
Population growth is negative when birth rate starts falling in third stage

5) Becker's economic theory of fertility is based on *1 point*

- Cost-benefit analysis of raising children
- Quality-quantity trade off related to number of children
- Market dynamics based on demand and supply of children
- None of the above

No, the answer is incorrect.
Score: 0
Accepted Answers:
Quality-quantity trade off related to number of children

6) The following theory considers Social Determinants of Health … (find the wrong one) *1 point*

- Ecosocial theory of disease distribution
- Epidemiological transition
- Demographic transition
- Malthusian theory of population growth
- None of the above

No, the answer is incorrect.
Score: 0
Accepted Answers:
None of the above

7) In order to ensure good health at low cost we can adopt following strategies… (find the wrong one) *1 point*

- Health as a social goal towards social welfare
- Community involvement
- Health for all
- Independent sector specific approaches

No, the answer is incorrect.
Score: 0
Accepted Answers:
Independent sector specific approaches

8) Population pyramid for a year for a particular period states following information … (find the wrong one) *1 point*

- Child dependency rate
- Male and female composition in a population
- Demographic dividend
- Demographic transition
- None of the above

No, the answer is incorrect.
Score: 0
Accepted Answers:
Demographic transition

9) Demographic transition theory incorporates migration in population change *1 point*

- True
- False

No, the answer is incorrect.
Score: 0
Accepted Answers:
False

10) Human Development Index cannot be measured in (i) short run but can be measured even for a (ii) very small population *1 point*

- Proposition (i) is correct, but (ii) is false
- Proposition (i) is false, but (ii) is correct
- Both propositions (i) and (ii) are correct
- Both propositions (i) and (ii) are false

No, the answer is incorrect.
Score: 0
Accepted Answers:
Proposition (i) is correct, but (ii) is false
