Unit 7 - Week 5

Course Code: (Not specified)
Assessment Due Date: (Not specified)

Assignment 5
Due on 2020-09-02, 23:59 IST

1. ACI7816 works for what organization? What is his role there? (2 points)
   - ACI7816 works for ABC Financial Services.
   - His role is responsible for overseeing system maintenance.

2. Interim Corporation isAcquired PRM and then...
   - Interim Corporation is Acquired PRM and then...
   - Interim Corporation is Acquired PRM and then...

3. Potential risks include... (2 points)
   - Potential risks include...
   - Potential risks include...
   - Potential risks include...

4. Which of the following is not a criterion for the code review process? (2 points)
   - Application level
   - Transaction level
   - Data level

5. Which of the following devices can be connected to a server? (2 points)
   - Bridge
   - Routers
   - Switches

6. Which of the following is not a characteristic of an internet service provider? (2 points)
   - Customer service
   - Connection stability
   - Data sharing

7. What is the responsibility of the system administrator? (2 points)
   - System administrator is responsible for...
   - System administrator is responsible for...
   - System administrator is responsible for...

8. Which of the following procedures is not a part of the e-commerce process? (2 points)
   - Order fulfillment
   - Payment processing
   - Data encryption

9. Which of the following is not a characteristic of a firewall? (2 points)
   - Limit access to specific network services
   - Increase network security
   - Mask the internal network structure

10. Which of the following is not a characteristic of an OS? (2 points)
    - Process management
    - File management
    - Hardware management

11. Which of the following is not a characteristic of a network device? (2 points)
    - Routing
    - Switching
    - Modem

12. Which of the following is not a characteristic of a network layer protocol? (2 points)
    - IP
    - TCP
    - UDP

13. Which of the following is not a characteristic of a network protocol? (2 points)
    - Protocol-specific commands
    - Error checking
    - Addressing information

14. Which of the following is not a characteristic of a network device? (2 points)
    - Repeaters
    - Bridges
    - Routers

15. Which of the following is not a characteristic of an OSI model layer? (2 points)
    - Application layer
    - Presentation layer
    - Network layer

16. Which of the following is not a characteristic of a network protocol? (2 points)
    - Error checking
    - Authentication
    - Data encryption

17. Which of the following is not a characteristic of a network device? (2 points)
    - Gateway
    - Bridge
    - Routers

18. Which of the following is not a characteristic of an OSI model layer? (2 points)
    - Application layer
    - Presentation layer
    - Network layer

19. Which of the following is not a characteristic of a network protocol? (2 points)
    - Error checking
    - Authentication
    - Data encryption

20. Which of the following is not a characteristic of a network device? (2 points)
    - Gateway
    - Bridge
    - Routers
