Unit 6 - Week 4

Week 4 Assignment 4

Due Date: Sunday, May 10, 2023

In this week's assignment, you will be working on an employee performance management system. Your goal is to develop a system that will help managers effectively evaluate employee performance. Here are the requirements:

1. Develop a system that allows managers to rate employees based on various performance metrics. These metrics could include productivity, attendance, and customer satisfaction.
2. Create a user interface that is intuitive and easy to use.
3. Implement a system for tracking employee performance over time.

Assignment Instructions:

- Use a database management system to store employee data.
- Create a login system for managers to access the performance management system.
- Develop a report generation feature that can provide managers with comprehensive performance reports.

Submission Requirements:

- Submit a detailed report outlining your system design and implementation strategies.
- Attached code snippets demonstrating the functionality of your system.
- A video or presentation demonstrating how the system works.

Grading Criteria:

- System Design (30%)
- Code Quality (20%)
- User Interface (20%)
- Efficiency and Scalability (15%)
- Creativity and Originality (15%)

Note: Late submissions will be penalized 20% for each day late. The assignment will not be accepted after Monday, May 15, 2023.
