Assignment 4

The due date for submitting this assignment is passed. As per our records you have not submitted this assignment.

1. Warehouse location models for non-weighting new raw materials is a new model
   - A) True
   - B) False
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   B) False
   
2. Break-even location models is a new model
   - A) True
   - B) False
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   B) False
   
3. Under factor rating model, the factors are given equal weightage. Otherwise calculation cannot be done.
   - A) True
   - B) False
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   B) False
   
4. Under break-even model, break-even cost is broken up into fixed and variable cost.
   - A) True
   - B) False
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   B) False
   
5. The Centre of Gravity model measures the distance of a location from the centre of the earth.
   - A) True
   - B) False
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   B) False
   
6. Under the centre of gravity model, the x-coordinate value should be
   - A) x = 1/2
   - B) x = 0
   - C) x = 0 to 1
   - D) x = can take any great value
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   D) x = can take any great value
   
7. Under the break-even analysis:
   - A) A range of feasible output range can be computed
   - B) A range of feasible locations can be computed
   - C) None of the above
   - D) All of the above
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   D) All of the above
   
8. In ABC analysis:
   - A) 5% of inventory contributes to 75% of consumption expenditure
   - B) 10% of inventory contributes to 10% of consumption expenditure
   - C) 40% of inventory contributes to 30% of consumption expenditure
   - D) 60% of inventory contributes to 70% of consumption expenditure
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   D) 60% of inventory contributes to 70% of consumption expenditure
   
9. If GST has to be incorporated in the transportation cost model
   - A) A separate algorithm has to be developed
   - B) GST cannot be incorporated in any transportation model, it is a tax issue
   - C) add GST cost to the transportation cost
   - D) None of the above
   
   No, the answer is incorrect.
   Score: 0
   Accepted Answers:
   C) add GST cost to the transportation cost
