Assignment 2

1. Describe the main differences between the two articles. What are the key points that are emphasized in each article?

2. In the first article, the author discusses how social media has changed the way we communicate. What specific examples does the author provide to support his/her argument?

3. The second article focuses on the impact of technology on education. How does the author argue that technology is changing the way students learn?

4. Both articles mention the role of technology in shaping our future. How do the authors predict technology will continue to evolve and influence our lives?

5. How do the authors address the potential downsides of technology? Do they offer any suggestions for how society can mitigate these risks?

6. Overall, what conclusions can you draw about the benefits and drawbacks of technology in our society, based on the information presented in both articles?
