Assignment 4

Due date: 11:59 PM (HST) on 30 June 2023

Instructions:

1. Identify a real-world problem or opportunity in plastics management and propose a solution. Discuss the benefits and potential challenges of your proposed solution. (10 points)

2. Research the current state of plastics recycling in your city or state. Present your findings and discuss any barriers to recycling. (10 points)

3. Propose a new policy or program to increase plastics recycling rates. Justify your proposal and discuss potential implementation strategies. (10 points)

4. Select a type of plastic (e.g., PET, LDPE, HDPE) and compare its environmental impact to that of other plastics. Discuss potential solutions to mitigate these impacts. (10 points)

5. Evaluate the effectiveness of a recent plastics pollution action campaign. Summarize your findings and discuss areas for improvement. (10 points)

Guidelines:

- All assignments must be submitted in Word or PDF format.
- Include references for all sources used.
- Late submissions will lose 5% of the total points for each day late.
