Unit 10 - Week 08 - Work Study

Assignment 08

The due date for submitting this assignment has passed. As per our records you have not submitted this assignment.

Due on 2020-03-25, 23:58 BST.

1. Productivity:
   - Input/Output
   - Process/Output
   - Output/Input
   - None of the above
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - None of the above

2. The correct order of procedure in method study is:
   - Select - Record - Define - Develop - Install - Maintain
   - Select - Record - Develop - Define - Install - Maintain
   - Select - Define - Develop - Record - Install - Maintain
   - None of the above
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - Select - Record - Define - Develop - Install - Maintain

3. For last year 380,000 units output using 2,10,000 labor hours. For second year 381,000 units output using 240,000 labor hours. So the productivity
   - 0.792
   - 1.157
   - 0.886
   - None of the above
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - 0.792

4. Non-productive activities can be due to:
   - Excessive activities due to human error
   - Excessive activities due to poor design of product or service
   - Excessive activities due to interruptions and poor work layout
   - All of the above
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - Excessive activities due to human error

5. Motion study is designed to:
   - Measure the time required by an average worker to complete a task at normal pace
   - Determine the best way to complete a task
   - Measure the time required to complete a task by using machines
   - None of the above
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - Measure the time required by an average worker to complete a task at normal pace

6. The following factors must not be considered while selecting the work for method study:
   - Time considerations
   - Human considerations
   - Technological considerations
   - All of the above
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - Time considerations

7. In process charts, the symbols used for operation, inspection and storage are:
   - Square, triangle, circle
   - Circle, square, triangle
   - Triangle, circle, square
   - Circle, triangle, square
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - Circle, square, triangle

8. Time study is used to:
   - Determine standard cost
   - Determine the capability of an operator to handle the number of machines
   - Provide a basis for setting piece rate or incentive wages
   - None of the above
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - Determine the capability of an operator to handle the number of machines

9. Which one is generally practice of time study?
   - It is less costly than work sampling
   - Only two or few observations are needed
   - There is more detail about a job than with work sampling
   - All of the above
   No, the answer is incorrect. Score: 0
   Accepted Answers:
   - Only two or few observations are needed
