Assignment 2

Due on 10/20/11, 11:59 PM

1. A new student has just enrolled in your class. He has been told that there are 15 assignments due before the end of the semester. He asks you if he should start working on assignments now or wait until the last minute. What would you advise him to do?

2. A student comes to you with a problem. He has been working on a project for the past month, but is still struggling with one particular aspect. He asks you for advice on how to proceed. What would you tell him?

3. A student is having trouble understanding the material in your lectures. He asks you for additional resources to help him. What resources would you recommend?

4. A student has been consistently getting low grades on assignments. He asks you for feedback on how to improve. What would you tell him?

5. A student is interested in pursuing a career in your field. He asks you for advice on how to prepare for this. What would you recommend?

6. A student is feeling overwhelmed by the workload in your class. He asks you for strategies to manage his time more effectively. What would you suggest?

7. A student has been absent from class for several weeks and is struggling to keep up. He asks you for help. What would you do?

8. A student is having difficulty understanding a concept in your course. He asks you for a different explanation. What would you do?

9. A student has been consistently getting high grades on assignments. He asks you for advice on how to stay motivated. What would you tell him?

10. A student has been struggling with a particular topic in your course for several weeks. He asks you for help. What would you recommend?
