Unit 8 - Week 6

Assignment 6
Due on 2020-10-28, 23:59:59.

1. How far is it to the horizon? (In km)
   - 35
   - 50
   - 100
   - 150
   - None
   - The plane is in a circular motion.

2. Plane is at an elevation of 35 degrees. Which of the following best describes the plane's position?
   - (a) 100
   - (b) 50
   - (c) 5
   - (d) 1
   - (e) None
   - The plane is in a circular motion.

3. Plane is at an altitude of 35 degrees. Which of the following best describes the plane's position?
   - (a) 100
   - (b) 50
   - (c) 5
   - (d) 1
   - (e) None
   - The plane is in a circular motion.

4. Plane is at an elevation of 35 degrees. Which of the following best describes the plane's position?
   - (a) 100
   - (b) 50
   - (c) 5
   - (d) 1
   - (e) None
   - The plane is in a circular motion.

5. Plane is at an altitude of 35 degrees. Which of the following best describes the plane's position?
   - (a) 100
   - (b) 50
   - (c) 5
   - (d) 1
   - (e) None
   - The plane is in a circular motion.

6. Plane is at an elevation of 35 degrees. Which of the following best describes the plane's position?
   - (a) 100
   - (b) 50
   - (c) 5
   - (d) 1
   - (e) None
   - The plane is in a circular motion.

7. Plane is at an altitude of 35 degrees. Which of the following best describes the plane's position?
   - (a) 100
   - (b) 50
   - (c) 5
   - (d) 1
   - (e) None
   - The plane is in a circular motion.

8. Plane is at an elevation of 35 degrees. Which of the following best describes the plane's position?
   - (a) 100
   - (b) 50
   - (c) 5
   - (d) 1
   - (e) None
   - The plane is in a circular motion.

9. Plane is at an altitude of 35 degrees. Which of the following best describes the plane's position?
   - (a) 100
   - (b) 50
   - (c) 5
   - (d) 1
   - (e) None
   - The plane is in a circular motion.

10. Plane is at an elevation of 35 degrees. Which of the following best describes the plane's position?
    - (a) 100
    - (b) 50
    - (c) 5
    - (d) 1
    - (e) None
    - The plane is in a circular motion.

11. Plane is at an altitude of 35 degrees. Which of the following best describes the plane's position?
    - (a) 100
    - (b) 50
    - (c) 5
    - (d) 1
    - (e) None
    - The plane is in a circular motion.

12. Plane is at an elevation of 35 degrees. Which of the following best describes the plane's position?
    - (a) 100
    - (b) 50
    - (c) 5
    - (d) 1
    - (e) None
    - The plane is in a circular motion.
