1) Standardization is an attempt to increase design complexity, the statement is;

- True
- False

No, the answer is incorrect.
Score: 0
Accepted Answers:
False

2) Which of the following is (are) closely related to the INTRODUCTION stage of the Product Life Cycle;

- Demand is high
- Advertisement and promotion are required
- Both A and B
- None of these

No, the answer is incorrect.
Score: 0
Accepted Answers:
Advertisement and promotion are required

3) What should be the product policy of an aircraft manufacturing industry?

- Highest quality
- Safety
- Lowest price
- Both A and B

No, the answer is incorrect.
5) What should be the feature(s) of a good product design;  
- Functionality  
- Productivity  
- Both A and B  
- None of these

No, the answer is incorrect.  
Score: 0  
Accepted Answers:  
Both A and B

6) The implementation of concurrent engineering while designing a product, decreases the product development time:
- True  
- False

No, the answer is incorrect.  
Score: 0  
Accepted Answers:  
True

7) Which of the following is majorly related to the appearance of the product;  
- Functional aspect  
- Operational aspect  
- Aesthetic aspect  
- Durability aspect

No, the answer is incorrect.  
Score: 0  
Accepted Answers:  
Aesthetic aspect

8) The following is (are) the source(s) for developing new or improved product;  
- Research and development department of the enterprise  
- Consumer suggestions and complaints  
- Other competitive products in the market  
- All of the above

No, the answer is incorrect.  
Score: 0  
Accepted Answers:  
All of the above

9) The product cost can be reduced by considering the following aspect(s) at the design stage;  
- Maximum number of operations

No, the answer is incorrect.  
Score: 0  
Accepted Answers:  
None of these
What is the primary responsibility of a product designer?

- To make the product
- To buy raw materials for the product
- To make a design of the product and to reiterate if there is an error in the product design
- None of these

No, the answer is incorrect.
Score: 0

Accepted Answers:
To make a design of the product and to reiterate if there is an error in the product design
